

TRIP COMPUTER

All information in one place

With the Trip computer, the driver gets access to information such as trip distance, average speed, fuel consumption and much more. The information easily monitored via the Volvo Penta displays.

Performance and safety

By displaying vital engine data, it helps the driver to plan the driving and optimize the boat's performance for reduced environmental impact and with functions such as distance to empty, it's also a safety feature.

Available data

The system is extremely flexible and functions depend on what sensors are chosen. The data available is instant fuel rate, trip time, trip fuel, average fuel rate, and time to empty. With extra sensor or NMEA interface, instant fuel economy, trip distance, average fuel economy, and distance to empty is also available.

TRIP COMPUTER

All information in one place

Features and benefits

- Instant fuel rate (volume/hour)
- Trip fuel
- Instant fuel consumption (volume/distance)
- Average fuel consumption
- Trip distance
- Estimated remaining distance
- Average fuel rate
- Trip time
